

TTT in the Cloud

July 11, 2022

Exciting news for TTT Members!

We are very happy to announce the launch of our new TTT web application this week, we're no longer just a website!

Our old website served us well for decades but has gotten "long in the tooth," so we took advantage of the pandemic to rewrite all of the functions of our legacy website and migrate all Member and Property information into a new cloud-based software framework.

Internet technology has advanced so much since our original website and there are so many new functions we've been wanting to add, but our legacy technology couldn't support them. We have a long list of improvements we'll be making now that we're in the Cloud. Once we've validated that the entire legacy site has been successfully migrated into our new web application, we can start doing the fun stuff!

We are calling this migration "TTT Phase 2.0." It includes many improvements like a new "Members Section" (which you will see when you log in), substantial increase in response speed, and improvements on the "Search Properties" page and Membership Application. Plus, members who rent your properties will be able to add a link to your rental profile on VRBO or Airbnb (or any other rental website) in your property profile on our application. Members and the general public will be able to view your rental listing, calendar, and map (please note our mapping function on property profiles is not yet working but soon will be and we'll be adding calendars).

With Phase 2.0, Trade to Travel has transitioned into a modern, responsive, cross-browser, cross-device, and mobile-friendly solution. From this robust application framework, new features can be reliably added, so we can create the application of our members' dreams!

We will be cutting over to our cloud servers on July 13 at 9:00 p.m. EST. For 24 hours after this launch time, please do not use our member messaging system. Please contact Rachel (Rachel@tradetotravel.com) if you would like to initiate a new trade request during these 24 hours or if we can be of assistance in any way.

After the migration is complete, we will ask for your help to validate that all your information has migrated successfully. Please also use this opportunity to update your information and photos. I will send a newsletter to let you know as soon as the new application is ready for you to check it out!

In the meantime, below are five of our favorite properties available for exchange. Please let us know if you would like to visit one of these properties or if there is anything we can do for you!

All the best,
Leah
